WORK EXPERIENCE

Knowledge Streams | Trainee MERN Stack   *(Jul 2024 – Sep 2024)*

- Learned the development of full-stack applications using MongoDB, Express.js, React, and Node.js (MERN stack).
- Strengthened expertise in Object-Oriented Programming (OOP) and Data Structures and Algorithms (DSA) through rigorous assessments and real-world problem-solving.
- Utilized Git and GitHub for version control, contributing to various repositories.

PROJECTS

BanoTextile

- Developed a responsive, user-friendly website for Bano Textile using React, showcasing products with modern design principles to enhance user engagement and accessibility.
- Integrated dynamic content and optimized site performance for fast load times and a seamless experience across all devices.
- Collaborated with the client to ensure the website aligns with their brand identity and meets their specific needs.

DukaanOnline

- Implemented a user-friendly contact form with real-time validation and error handling.
- Designed and integrated a responsive store locator with map functionality.
- Enhanced user experience by adding smooth animations and ensuring cross-device compatibility.

Courier Management System

- **Role-Based Access Control:** Developed a MERN stack Courier Management System with distinct roles for Admin, Branch Admin, Driver, and Customer/Client, ensuring tailored access and functionality for each stakeholder.
- **Efficient Task Management:** Implemented key courier management features, allowing Admins to oversee operations, Branch Admins to manage local branches, Drivers to update delivery statuses in real-time, and Customers/Clients to track and manage their shipments.
- **Seamless Integration:** Leveraged MongoDB for data storage, Express.js and Node.js for backend operations, and React for a responsive user interface, ensuring a smooth and scalable experience across all user roles.

CERTIFICATIONS

React Skills Certified – TestDome   *(Aug-2024)*

- Successfully passed the React skills assessment on TestDome, demonstrating proficiency in building responsive, high-performance user interfaces using React.

React And Redux Certification Test   *(Aug-2024)*

- Certified in React and Redux, showcasing expertise in developing state-managed applications using React and Redux, with a focus on scalability and maintainability.

CORE SKILLS

Programming Languages: JavaScript (including ES6+ features) | HTML5 | CSS3
Developer Tools: VS Code, Postman
Version Control: Git | GitHub
Design | UI/UX Design: Canva, Figma
Frameworks & Libraries: React, Tailwind, Express
Databases: MongoDB, MySQL

EDUCATION

Comsats University Islamabad, Lahore Campus
Bachelor of Science in Computer Science   *(Completion Year 2023)*
